Executive summary

> **The provided records indicate the name Alex Vale (or Álex Vale) associated with a Facebook profile, an active Adobe account, and a Portfolio registration from 2019. The Portfolio record includes the username vale.studio, an alternate email, and a phone number.**

Key observations

Name and Account Registrations

alex@example.com | R1 · Facebook, R2 · Adobe, R5 · Portfolio, R6 · Canva | 2019-10-13

Limit · These records do not confirm identity, current usage, or professional status.

Breach Index Appearance

alex@example.com | R7 · hibp | 2022-03-25

Limit · The index does not confirm that a specific password was exposed for this individual.

Additional Service Indicators

alex@example.com | R3 · Huawei, R4 · AliExpress | Date unspecified

Limit · These indicators do not establish device ownership, physical presence, or active engagement.

Facebook

Scope of the search

The source lists the queried identifier in its breach results. Incident dates, affected-user totals and categories of exposed data describe the wider incident. Establishing which additional fields were disclosed for this identifier requires a source that explicitly links each field to it.

> **North Quay Studio (fictional incident)** · March 25, 2022 R7

Detailed findings

Name and Account Registrations

The name Alex Vale appears in a Facebook profile and an active Adobe account. The name Álex Vale is associated with a Portfolio registration from 2019, which includes the username vale.studio, an alternate email, and a phone number. A Canva registration is also present.

R1 · Facebook · R2 · Adobe · R5 · Portfolio · R6 · Canva

Breach Index Appearance

The email alex@example.com is listed in a fictional breach index for North Quay Studio, dated 2022-03-25. The incident metadata lists email addresses and passwords as affected data classes.

R7 · hibp

Additional Service Indicators

An AliExpress record shows an ID and email code verification method. A Huawei record indicates a masked email hint and a site country of France.

R3 · Huawei · R4 · AliExpress

Investigator’s conclusion

The records consistently associate the name Alex Vale (or Álex Vale) with several online service registrations, including an active Adobe account and a Portfolio profile. The appearance of the email in a breach index highlights a potential security consideration. However, the data does not verify professional qualifications, device ownership, or physical location.

Independent verification of contact details and business roles is recommended.

Recommended actions

Partnership review
Verify business email. Confirm the primary contact email through an independent channel to ensure secure communication.

Recruitment process
Clarify claimed responsibilities. Ask the candidate to detail their specific duties and achievements in previous roles.

Personal protection
Review account security. Check the security settings on the active Adobe account and other registered services.
