Canva

Detailed findings

Portfolio Registration

A Portfolio account exists with the username 'vale.studio', registered on 2019-10-13. This indicates an online presence, but does not confirm active use or professional status.

R3 · Portfolio

Facebook Profile

A Facebook profile is associated with the name 'Alex V.' and a masked email 'a***@example.com'. The masked email prevents direct verification of the account owner's identity.

R1 · Facebook

Canva Registration

There is a registration on Canva, but no further details about usage or account activity are provided.

R2 · Canva

Investigator’s conclusion

The records show an online presence across Facebook, Canva, and a Portfolio site, with a registration date of 2019-10-13 for the latter. However, the lack of unmasked contact information or detailed activity logs leaves the individual's identity and professional engagement unverified. Independent verification of contact details and professional history is necessary.

Recommended actions

Partnership review
Verify business email. Confirm the contact's email address through an independent channel, as only a masked email is available.

Recruitment process
Clarify claimed responsibilities. Ask the candidate to detail their specific contributions to past projects to assess their experience.

Personal protection
Review account security. Ensure strong, unique passwords and two-factor authentication are enabled on all accounts.
